Kentucky Exhibit Association

In a letter addressed to the people of Madison county, Mr. J. W. Smith, of Glendale, says:

Having been appointed Chairman of the sub-committee on grasses by Col. L. B. Nall, Chairman of the committee on Agriculture of the State of Kentucky, at the World's Fair, at St. Louis in 1904, we desire to have the co-operation of the best citizens in each county in the State to assist in making a suitable display of all grasses, clovers, etc., and to accomplish this end will be so kind as to assist us in getting such specimens as grow in your county?

We hope you will have this circular published in your county papers so that every farmer will have an opportunity to take part in the display and feel like it is his business.

We would like to have specimens of all kinds of sorghum, millet, corn, milo, maize, millet, Hungarian and orchard grass, all kinds of clover and any other kind of grass that grows in your county.

We would also like to have about one-half gallon of seed of every kind obtainable, well cleaned and put in neat cotton bags. All specimens to be gathered after full growth, but yet green, and dried in the shade, and then wrapped with twine and covered with some kind of cloth the entire length.

The smaller grasses to be from three to five inches in diameter and the larger ones from five to eight inches. It would be a good plan to put a small stick in the center of each bundle to prevent bending. All specimens must be put in neat cotton bags, and each bundle of grass or seed must be marked on a tag with the exhibitor's name, post office, county and State, and this will show from whom and where they came.

After you get everything ready, put them in a safe and secure place and notify us, and some time next fall we will notify you where to ship them for storage (at our expense).

We are very anxious to have our State make a grand display and hope you will render us all the assistance in your power.

A Serious Mistake

E. C. DeWitt & Co. is the name of the firm who make the great Huxley's Kidney Pills. DeWitt's is the name of the firm who make the great Huxley's Kidney Pills. DeWitt's is the name of the firm who make the great Huxley's Kidney Pills.

Major James B. Pond, famous as a manager of lectures and public speakers, died in New York yesterday as the direct result of amputation of his leg.

Judge James Hargis said to the Lexington Democrat that the most friendly feeling existed between him and Commonwealth's Attorney Byrd. He says Byrd simply did his duty as a prosecutor and no one can blame him for that.

Kodol Gives Strength

By enabling the digestive organs to do their work and transform all of the food into blood, the nerves feed the tissues, harden the muscles and strengthen the entire body. Kodol Dissolves the curd and cleanses the stomach and all stomach disorders. Sold by E. C. DeWitt.

The jury in the Jett-White case at Jackson failed to agree and was discharged. Eleven favored the death penalty for Jett and one for acquittal. Judge Redwine ordered a change of venue of the case to Harrison county.

The prisoners were taken to Lexington for safe keeping. Burns Fitzpatrick was the juror who stood out for Jett's acquittal and a dispatch from Jackson says it is Fitzpatrick's father-in-law, Wesley Barnett, was here last week and was associated with the Hargis faction while here. He was closely watched until he left town.

Faculty of Madison Institute

Miss Taylor, the highly appreciated teacher of piano, Prof. Miller, the unrivaled teacher of stringed instruments, Miss Wheatley, the popular teacher of the department of music, and Mrs. Cabell, who so ably assisted in the music department last season, will be with us again next year. Mrs. Cabell will have charge of the primary department. She has been engaged for more than two years to give work and made a fine reputation as a wide awake, enthusiastic teacher of children. The new teacher of ancient and modern languages is Miss Madeline McGuffey, A. B. of the University of Michigan, will be at the head of the department of English Language and Literature, while Miss Lena J. Hicks, A. B. of Western College, Baltimore, will teach Mathematics and science. Woman's College ranks with each institution as a Western, Yale, Swarthmore and Bryn Mawr, America's greatest schools for women. Some years ago while a student at this institution, Miss Hawkins was honored by being made assistant to the professor of science in the department of the University of Chicago. The art department will be in charge of Miss Loretta Lippert, of Cincinnati, who has been the Cincinnati Academy of Art, who has been teaching in Cincinnati with remarkable success for a number of years, and whose pictures have been accepted and hung in the Art Museum of that city, and whose work is known on every art gallery. This department will be charged next season with the teaching of voice culture and anatomy. In the piano department is Miss Mary L. Boyd, a graduate of the Cincinnati Conservatory of Music. These women not only received their training at the world's greatest schools but have had years of the most successful experience in teaching, and have made unusually fine records as instructors in their respective departments, and are the ladies of fine culture and Christian character.

Do the people of Madison county think that there is only one college in Kentucky that keeps such a "fine faculty"? It is a fact, and one that they should be proud of. Agents of other schools have already begun their efforts to induce some of you to send your daughters away from home to school. But compare the faculty page in their catalogues with ours and note the difference. Why should you turn your back on Madison Institute with its faculty composed of graduates of the world's great institutions of learning and go to a school where teachers never so much as looked inside of such institutions, and many of whom never graduated anywhere? You will be loath to allow your daughter to do so! It is hard to induce Madison Institute to the highest plane it now occupies in its education of young ladies in this and other States? Would it be wise from any point of view? Your children are entitled to the very best educational advantages, and they have such advantages here at your door. Show your appreciation of this fact, as well as your love for your child, by sending her to our school, where you have never done before, and you will see reason the strongest and most convincing school on "our little island" where you have ever been.

J. W. McGARVEY, JR., President.

Driven to Desperation

Fourth of July at Chautauque

The management of the Lexington Chautauque have provided for the Fourth of July the best program in the history of the great institution and there is every indication that the present season from June 30 to July 10 will be the best the Chautauque has ever given. The program for the National day celebration has been arranged with a grand deal of care. Gen. Fitzhugh Lee, the gallant hero of the south, will be the principal speaker of the day. He is expected to draw the largest audience.

The distinguished lecturer, John DeWitt Miller, will also be a speaker. At night there will be a musical concert and a novel entertainment that has never been approached by any other Chautauque in the country, only the best and most expensive talent being engaged. Reduced rates on all railroads.

Judge James Hargis is being

wined and dined in Lexington as if he had done some thing great. In fact a certain class of Lexington people seem to think he is the whole thing. What has he done to make him a hero, we would like to know? Certainly his herculean efforts to prevent punishment of the assassins of J. B. Mason should not entitle him to such recognition. As judge of his county Judge Hargis should have given aid to the prosecution of Jett and White instead of importing lawyers to defend them and making a pretty fair attorney for them himself. If the judge desired to do so he could do a great deal toward bringing out of chaos in Breathitt county and he owes it to his office and to the people who elected him to do so and do it at once.—Interior Journal.

Gen. Clay is Prof. South. Papers all over the State have been publishing notices of the various classes of General Cassin M. Clay, the son of White Hall. These reports are wholly without foundation, as a man named Cassin M. Clay was a man who was in perfect health, and has been in the city of Louisville for some time. It was also a mistake that one of his bodyguards, Joe Perkins, had been accidentally shot in the chest by an old gun. Every thing at White Hall is as quiet as usual and these reports are entirely without foundation.
